OUR STORY

The Glow Medical Aesthetics was created with a simple belief: aesthetic treatments should enhance skin health, not compromise it.

Founded in Kensington Olympia by an experienced Registered Nurse with a passion for regenerative aesthetics, The Glow was built to offer a more personalised, ethical, and results-driven approach to skin treatments.

In a world of overcrowded trends and quick fixes, The Glow focuses on refined, balanced, and undetectable results that help clients feel confident in their own skin. Every treatment plan is tailored to support healthier, stronger, and more radiant skin over time.

Combining advanced aesthetic technology with medical knowledge and a clinical luxury experience, The Glow specialises in skin rejuvenation, collagen stimulation, regenerative treatments, and non-surgical facial enhancement.

As a Save Face Accredited Clinic, patient safety, education, and honest treatment planning remain at the centre of everything we do.

OUR APPROACH

Skin Health First

Healthy skin is the foundation of every treatment we offer. We focus on strengthening the skin barrier, improving skin quality, and creating long-term skin confidence rather than chasing short-term trends.

Regenerative Aesthetics

Our treatments are designed to stimulate the skin's natural repair and renewal processes using advanced collagen-stimulating and regenerative technologies.

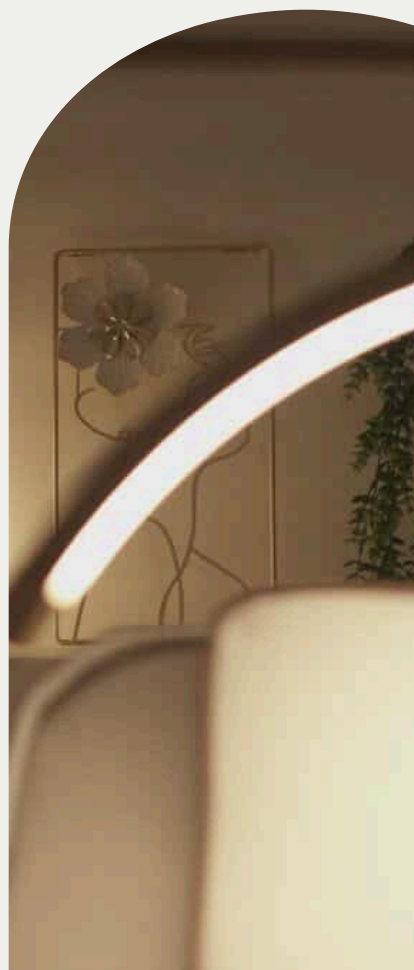

Natural Results

We believe in refined, balanced, and undetectable results that enhance your natural features while maintaining facial harmony and authenticity.

THE GLOW PHILOSOPHY

"Glow from within."

Aesthetic medicine should not change who you are — it should help you look healthier, fresher, and more confident in your own skin.

SIGNATURE FACIALS

The Glow Starter Facial – £50 First session only

A personalised introduction to professional skincare. Cleanse, assess, and reset your skin while creating a tailored plan for your glow journey.

The Glow Ultimate Facial – £130

Advanced multi-step facial combining deep cleansing, exfoliation, targeted treatment, and LED therapy for visibly clearer, brighter, and healthier skin.

The Glow Elite Facial – £149

A results-driven advanced facial featuring deep exfoliation, dermaplaning, targeted infusion, and collagen-stimulating technology to refine texture and restore radiance.
